About Mozzo...

In 2005 Grant Lang created the world's first solar and wind powered art covered coffee cart.

It was from this small yet remarkable cart that the adventure of **Mozzo**, the community hub of coffee and art began.

Driven by a belief that business in the 21st Century can be built differently, **Mozzo** is on a mission to raise the standards of ethical espresso coffee and have a little fun along the way!

Coffee...

To create something exceptional, you have to use the best ingredients...

Sourced directly from coffee farming communities, **Mozzo Coffee** is a distinctive, smooth tasting premium espresso coffee. Made using only the finest Fairtrade, Organic coffee beans... the magic **Mozzo** beans!

Each magic **Mozzo** bean is grown the way nature intended, the natural organic way.

This means no chemicals or nasty bits in the soil or your cup, just coffee. Growing these magic beans requires Fairtrade coffee farmers with passion, patience and precision.

The balance between coffee farmer, coffee bean and the environment is what makes **Mozzo Coffee**.

Art...

Coffee and art have been joined at the hip since people started drinking coffee a very long time ago. **Mozzo Art** strives to continue the connection between coffee and art by showcasing the work of emerging artists so that people can enjoy a coffee experience in an atmosphere of colour and soul inspired by creative talent.

How it works...

Art on the Brand™ is a concept involving a series of artworks, produced by emerging artistic talent.

Every 3 months **Mozzo** commissions an original piece of work. Taking this artwork we do our best to spread the word by using **Mozzo** bags and boxes as a canvas to create a unique gallery accessible to every **Mozzo Coffee** drinker. For each original piece of artwork that is commissioned, 25 limited edition prints are available to buy through the **Mozzo** website.

We don't just stop there. To find out more and get involved, visit www.mozzocoffee.com/art.

Community...

A way of thinking and acting that recognises people and the environment on a local, national and global level.

Mozzo thinks big and has a bold vision for the future. In building a business for the 21st Century we want to do more than ticking boxes, we want to transform a value chain. So evolving every step of the way our intention is to make that difference, not just for our coffee farming communities but also the community we all live in.

The Mozzo mission has started, follow our progress at www.mozzocoffee.com.

What they say...

*"The confidence Grant and the rest of the team at **Mozzo World** have in their product is only beaten by the amazing level of customer service they constantly deliver. The people are great, the service is great and most importantly the coffee is great. I'm very glad we changed to **Mozzo**."*

Matthew Johnson - RSA

*"Customers of **Mozzo** can be sure that every purchase plays a real part in enabling farmers and farm-workers to tackle poverty in their own communities."*

Barbara Crowther - Fairtrade Foundation

*"Attitude is what counts, and team **Mozzo** have it. At their core **Mozzo** is committed to quality, ethics and people, something that Eat Green believes to be fundamental to the future success and development of the hospitality industry."*

Jamie Grainger-Smith - Founder of the Eat Green Group

Cool beans, that's us
